Dear Coach:

Thank you for choosing EuroSoccer Camps to help train your team. We welcome you and look forward to working with you and your team in a week of intensive soccer skill instructions and fun.

I am sending you this package to prepare for the team camp. It contains forms and documents that help register your team and conduct the camp. Please review the contents of this package carefully. A EuroSoccer coach will be assigned to your team and will learn about your team through the information you provide us. If he or she has any questions, you'll be contacted. We are sure your team will benefit enormously from the team camp and will be energized and motivated to continue improving for a great season ahead.

To initiate the camp registration, please fill out the forms marked "To be filled out by Team Coach" and mail them to us with a deposit of \$150. The fee per player is \$70. The team gets one scholarship for every ten signups (eleventh one is free) to dispense in any way you desire, such as awarding it to a low income player, using it for team fund raising, or for your child as an appreciation for your endless efforts for the team. The remainder of the fee is due one week before the first day of the camp. We will confirm the camp through mail or email.

If you have any questions or comments, please do not hesitate to call me toll free at 1-888-EUROSOC or email me at kevin@eurosoccercamps.com.

I look forward to working with you.

Sincerely,
Kevin McClory, Director of Coaching

EuroSoccer Team Camps

Background

EuroSoccer Camps was established in 1994 to introduce a motivational style of teaching to soccer player development. Player development is heavily dependent on frequent practicing. Children tend to practice when they have fun while learning. EuroSoccer mixes serious skill development with fun to motivate children to practice and continue to learn. Because of the motivation our camps have lasting effect throughout the season.

EuroSoccer Camps recruits coaches from Scottish elite physical education sports colleges to offer the motivational teaching style while exposing the children to other cultures.

Since the first year, many regions have invited EuroSoccer to hold camps in their region. EuroSoccer has grown to major northern California metropolitan areas and continues to expand. We believe, because of our proven motivational approach, EuroSoccer will continue to play a major role in player development.

Our Skill Camps prepare players for game situations. Good soccer skills are foundations of play tactics and game strategies. Our motivational approach to skill development has produced results in the league seasons. We believe the skills must be put in game situation with other players on the team. Our team camps are designed to enhance player participation in team plays and create a cohesive team development.

Excerpts from What Coaches Say About Our Team Camps

I think the team camp was excellent! The extra work I had to do in signing up the boys was well worth the effort! The camp met all my expectations and more. Our boys learned a lot about soccer. But the best part of all was that we all had a lot of fun! I am certain that the lessons learned will stay with the team for a long time!

Your coach was very organized and competent. The players responded well to his instruction. It is amazing how they immediately were able to tailor the lessons to match the team's skill level. From then on, the team absorbed the lessons like a sponge. I couldn't have picked better coaches to teach the camp. He spoke with us frequently during the clinic, and he seemed concerned and focused on the skills we were interested in seeing developed in the players. He gave us a full verbal and written report on the last day.

It was great to see a female coach who plays soccer at a high level. I like different ways coaches relate to players. They were very impressed with the soccer expertise and abilities of your coaches. I think the Scottish culture was a hit with the boys (as with me!) We all got a kick out of listening to Scottish accents. By the end of the camp my son was speaking like the coaches, at home.

I was particularly impressed that he knew every player by name by the end of the first day and could talk on a level the kids could relate to. He showed respect towards the players, and made the drills fun. The players thought he was "cool." Let us know if he comes back to town, so we can have him work with our team again! I definitely recommend your team camp program to other coaches. I already have done so.
